

CSD 1103 - Front End Web Development I

Practice Exercise 2

Question 1:

Create a webpage which contains the title element (your name-student ID-assignment 2-1), one heading of first level (name of your favorite food), then one paragraph (short description of your favorite food), then an unordered list of 3-10 items with bullets (ingredients of your favorite food).

Submission:

Submit 2 files:

- your HTML file
- Screenshot image file, showing how your web page is rendered in the web browser (Filename: scr2-1.jpg)

Note: If you are unable to come up with your own content, use the Lorem Ipsum generator <https://loremipsum.io/generator/> in order to generate the random text and use in your web page (that website lets you choose what to generate: paragraphs, sentences, or words).

Question 2:

Create a webpage which contains the title element (your name-student ID-assignment 2-1), one heading of second level which says: “The Steps of Preparing (your favorite food name)”, then an ordered list of 3-10 items with numbers (steps from the recipe of your favorite food on how to prepare it).

Submission:

Submit 2 files:

- your HTML file
- Screenshot image file, showing how your web page is rendered in the web browser (Filename: scr2-2.jpg)

Note: If you are unable to come up with your own content, use the Lorem Ipsum generator <https://loremipsum.io/generator/> in order to generate the random text and use in your web page (that website lets you choose what to generate: paragraphs, sentences, or words).

Question 3:

Create a webpage which contains the title element (your name-student ID-assignment 2-3), one heading element of third level which says “Those Are my National Traditions and customs”, then a definition list of 2-5 terms and their definitions (your national tradition or custom as a term, and its short explanation as a definition).

Submission:

Submit 2 files:

- your HTML file
- Screenshot image file, showing how your web page is rendered in the web browser (Filename: scr2-3.jpg)

Note: If you are unable to come up with your own content, use the Lorem Ipsum generator <https://loremipsum.io/generator/> in order to generate the random text and use in your web page (that website lets you choose what to generate: paragraphs, sentences, or words).
